

Description

Enclosure made of an aluminum profile with anodized surface have a high efficiency of shielding EMC and good thermal characteristics.

Features

Width, мм: 85

Height, мм: 39

Case material: Aluminum

Degree of protection: IP52-53

Mounting cover: 4 screws

Mounting flange: Yes

Impact resistance: Yes

Corrosion resistant: Yes

Anodized surface: Yes

Good EMC shielding performance: Yes

Good thermal performance: Yes

Individual making of holes according to the drawings: Yes
